FINE FIRECLAY

BOCCHI brings back the ultimate material to your home. Fireclay, a 100% natural and recyclable material, used by craftsmen for centuries to create timeless fixtures, has now returned to our bathrooms.

Due to the specialized manufacturing process, which includes firing in kilns up to 2000 degrees Fahrenheit, fireclay becomes one of the most durable materials used in today's bathroom fixtures. Their specialized glaze coating that is fused with the fireclay body during firing gives fireclay sinks a non-porous, uniform surface which will not scratch, rust or stain over time.

BOCCHI Fireclay Bathroom Products allow homeowners to compliment other furnishings and incorporate many different themes to showcase their creativity.

With 12 designer colors to choose from including metallic glaze finishes, and multiple styles and sizes, each product can be installed in multiple ways that allow you truly customize your style... define your world with BOCCHI bathroom products.

DESIGN

The idea of design now goes beyond mere objects and products and turns into a holistic experience in our age.

Our priority is to introduce differentiated products that have stories. . . Stories driven by the idea of design, to the process all the way from initial design concepts through the end user.

BOCCHI is committed to combining its modern and traditional human-oriented design approach with high technology to offer innovative solutions. It's a hallmark to our company's original motto of 'il bagno per tutti' or 'a bathroom for all.'

Each product takes a journey from soil to ceramic... along the way BOCCHI remains a leader in its awareness for responsibility for nature and society. Each product is designed and built with care, and meant to last.

EXCLUSIVE BOCCHI COLORS

Color choices in the home create focal points, convey emotions and reflect our personal style.

Now BOCCHI gives you the opportunity to carry all these colors into your bathroom. You can create unique color stories in your home that balance the natural focal point created by your bathroom fixtures with the harmony created by your other accessories and finishes.

Add a splash of color to your world with BOCCHI

SUPER SMOOTH SURFACE

Super Smooth Surface technology has been developed to minimize lime remains, undesirable dirt and bacteria on ceramic surfaces and make cleaning easier. This technology is the result of many years of research.

Super Smooth Surface is 19 times smoother and has less roughness than regularly glazed surfaces.

Test results show that super smooth technology provides a surface that has a higher quality than regular porcelain surfaces. Therefore, the Super Smooth Surface requires much less water to clean and is more hygienic.

19X SMOOTHER, 19X EASIER

CLEAN+ TECHNOLOGY

Another innovative enhancement from BOCCHI is the Clean+ Technology. This technology helps you keep your bathroom fixtures always brilliant, clean, shiny and new.

Clean+ Technology decreases roughness so the contact angle of the ceramic surface can create a hydrophobic effect, which helps to prevent lime remains and undesirable dirt build up.

A smooth wipe and a mild cleaning would be sufficient to maintain the spark of your fireclay.

WARRANTY & CARE

Thank You For Choosing BOCCHI

Thank you for choosing BOCCHI. By doing so, you will enjoy the outstanding quality and durability of your new BOCCHI product for many years to come.

All information in this guide is based upon the latest product information available at the time of publication. At BOCCHI, we strive to fulfill our mission of improving the level of luxurious living for each person who is touched by our products and services. We reserve the right to make changes in product characteristics, packaging, or availability at any time without notice.

Please take a few minutes to review this guide. Pay special attention to the care and cleaning instructions.

FIRECLAY BATHROOM FIXTURES LIFETIME LIMITED WARRANTY

BOCCHI warrants its fireclay fixtures, sinks and toilet bowls, to be free of defects in material and workmanship during normal residential use for as long as the original consumer purchaser owns his or her home. Gloss reduction, scratching, staining and acid or alkaline etching of the finish over time due to use, cleaning practices or water or atmospheric conditions, are not manufacturing defects, but are indicative of normal wear and tear. This warranty applies only to BOCCHI fireclay fixtures, sinks and toilet bowls, installed in the United States of America or Canada (North America). If a defect is found in normal residential use, BOCCHI will, at its election, repair, replace or make appropriate adjustment. Damage caused by accident, misuse, or abuse, such as dents, chips and scratches after installation, is not covered by this warranty. Improper care and cleaning will void the warranty. Proof of purchase (original sales receipt) must be provided to BOCCHI with all warranty claims. BOCCHI is not responsible for labor charges, installation, or other incidental or consequential costs. In no event shall the liability of BOCCHI exceed the purchase price of the product.

If the fireclay fixture, sink or toilet bowl, is used commercially or is installed outside of North America, BOCCHI Co. warrants the fireclay fixture to be free from defects in material and workmanship for one (1) year from

the date the product is installed, with all other terms of this warranty applying except duration. All other components other than the fireclay fixture carry BOCCHI's one-year limited warranty unless otherwise specified.

ACCESSORIES ONE-YEAR LIMITED WARRANTY

BOCCHI warrants all aspects of the fixture accessories such as pop-up drain covers ("Accessories"), (except non-chrome finishes) to be free of defects in material and workmanship during normal residential use for as long as the original consumer purchaser owns his or her home. This warranty applies only to BOCCHI Accessories installed in North America. If a defect is found in normal residential use, BOCCHI will at its election, repair, provide a replacement part or product, or make appropriate adjustment. Damage to a product caused by accident, misuse, or abuse is not covered by this warranty. Improper care and cleaning will void the warranty.* BOCCHI is not responsible for labor charges, installation, or other incidental or consequential costs. In no event shall the liability of BOCCHI exceed the purchase price of the Accessory. If the Accessory is used commercially, or is installed outside of North America, or if the finish is Brushed Nickel (BN) or Oil Rubbed Bronze (ORB) finish, BOCCHI warrants the Accessory to be free from defects in material and workmanship for one (1) year from the date the product is installed, under BOCCHI standard one-year limited warranty.

*DO NOT use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. This will void the warranty.

To obtain warranty service, contact BOCCHI either through your Dealer, Plumbing Contractor, Home Center or E-tailer, or by writing BOCCHI Co., Attn: Customer Care Center, 11350 Old Roswell Rd. Suite 600 Alpharetta, GA 30009, USA. Please be sure to provide all pertinent information regarding your claim, including a complete description of the problem, the product, model number, color, finish, the date the product was purchased and from whom the product was purchased. Also include your original invoice.

IMPLIED WARRANTIES INCLUDING THAT OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY LIMITED IN DURATION TO THE DURATION OF THIS Bocchi AND/OR SELLER DISCLAIM ANY LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states/provinces do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of special, incidental or consequential damages, so these limitations and exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which vary from state/province to state/province. This warranty is to the original consumer purchaser only, and excludes product damage due to installation error, product abuse, or product misuse, whether performed by a contractor, Service Company or the consumer. This is BOCCHI's exclusive written warranty.

General Care and Cleaning Tips for BOCCHI Products

For best results, keep the following in mind when caring for your new product:

Always test your cleaning solution on an inconspicuous area before applying to the entire surface.

Wipe surfaces clean and rinse completely with water immediately after applying cleaner. Rinse and dry any overspray that lands on nearby surfaces.

Do not allow cleaners to soak on surfaces.

Use a soft, dampened sponge or cloth. Never use an abrasive material such as brush or scouring pad to clean surfaces.

Care and Cleaning Tips for BOCCHI Fine Fireclay Fixtures

Rinse thoroughly and use a soft cloth to wipe the product dry after each use.

Soft abrasive cleaners may be used when necessary to clean BOCCHI fireclay products. Strong abrasive cleaners will scratch and dull the surface.

Success with cleaners and procedures is dependent upon such factors as the hardness and temperature of the water, using exact measurements of ingredients, changes in cleaning formulas and the condition of the product being cleaned. Since there are variations within these

factors, BOCCHI cannot guarantee the effectiveness of the formulas mentioned.

Care & Cleaning Tips for Chrome and Other Finish Metal Surfaces

Do not use cleaners containing ammonia, bleach or acid.

Rinse thoroughly and use a soft cloth to wipe the product dry after each use.

The Oil-Rubbed Bronze finish should be cleaned only with Windex Original.

Success with cleaners and procedures is dependent upon such factors as the hardness and temperature of the water, using exact measurements of ingredients, changes in cleaning formulas and the condition of the product being cleaned. Since there are variations within these factors, BOCCHI cannot guarantee the effectiveness of the formulas mentioned.

The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your product looking beautiful.
